COMPANY PROFILE

OUR CREATIVITY IS A MARK EVERYWHERE

www.gulf-view.sa

ABOUT US

We are a combined company under one roof providing the best services and the finest specifications in turn-key solutions for Offices, Commercial, Industrial and individual facilities, including the services of residential buildings. We work for achieving 2030 the Kingdom's vision. Every Client we work with becomes a part of the team. Together we face the challenges and celebrate the victories.

OUR SERVICES

DESIGN

- At Gulf View, we create superior workspace.
- Designs made to reflect your organization and how you work.
- All the elements that can help to increase efficiency, productivity, inspire and make work-life more rewarding.

CREATE

- At Gulf View, we plan, design, budget and set timelines for your vision.
- From concept to completion, we have you covered.

BUILD

- At Gulf View, we cover the full development project from concept to completion.
- turn-key solution with complete technical drawings and final testing and commissioning.

SUPERVISION

- At Gulf View, we provide teams or individual consultants to discuss and support the creation and design of your specific project.

FURNITURE

- At Gulf View, we stock and deliver some of the finest, healthiest, and most awarded furniture systems in the workplace industry.

MAINTAIN

- Gulf View team always here for you.
- We provide post-contract support, warranties and aftercare services to guarantee your peace of mind.

OUR STRATEGY

To keep long term relationships with our customers by providing the best possible product with high quality that meets the customers satisfaction. and we are proud of the thousands of corporate friendships we have cultivated globally to date in Kingdom of Saudi Arabia, Oman, Bahrain, United Arab Emirates , and Egypt.

THE PROCESS

NEEDS ANALYSIS

Workflow, processes, and employees' activities will be defined and described. As a result, the arrangement of space, zones, and areas as well as the number of workstations, will be determined.

CREAT CONCEPT

Programming involves Architect Designer's understanding the spatial requirements needed in a space that the Client needs to design.

DESIGNING

Schematic Design is two-dimensional exploration of the space. An initial design scheme that seeks to define the general scope and conceptual design of the project including scale and relationships between building components.

EXECUTION

Our project managers will supervise every last detail including logistics, construction and onsite installations. All in all, our team is an extension of yours, helping you to stay on track and within budget.

WHAT MAKES US UNIQUE

QUALITY CONTROL SYSTEM

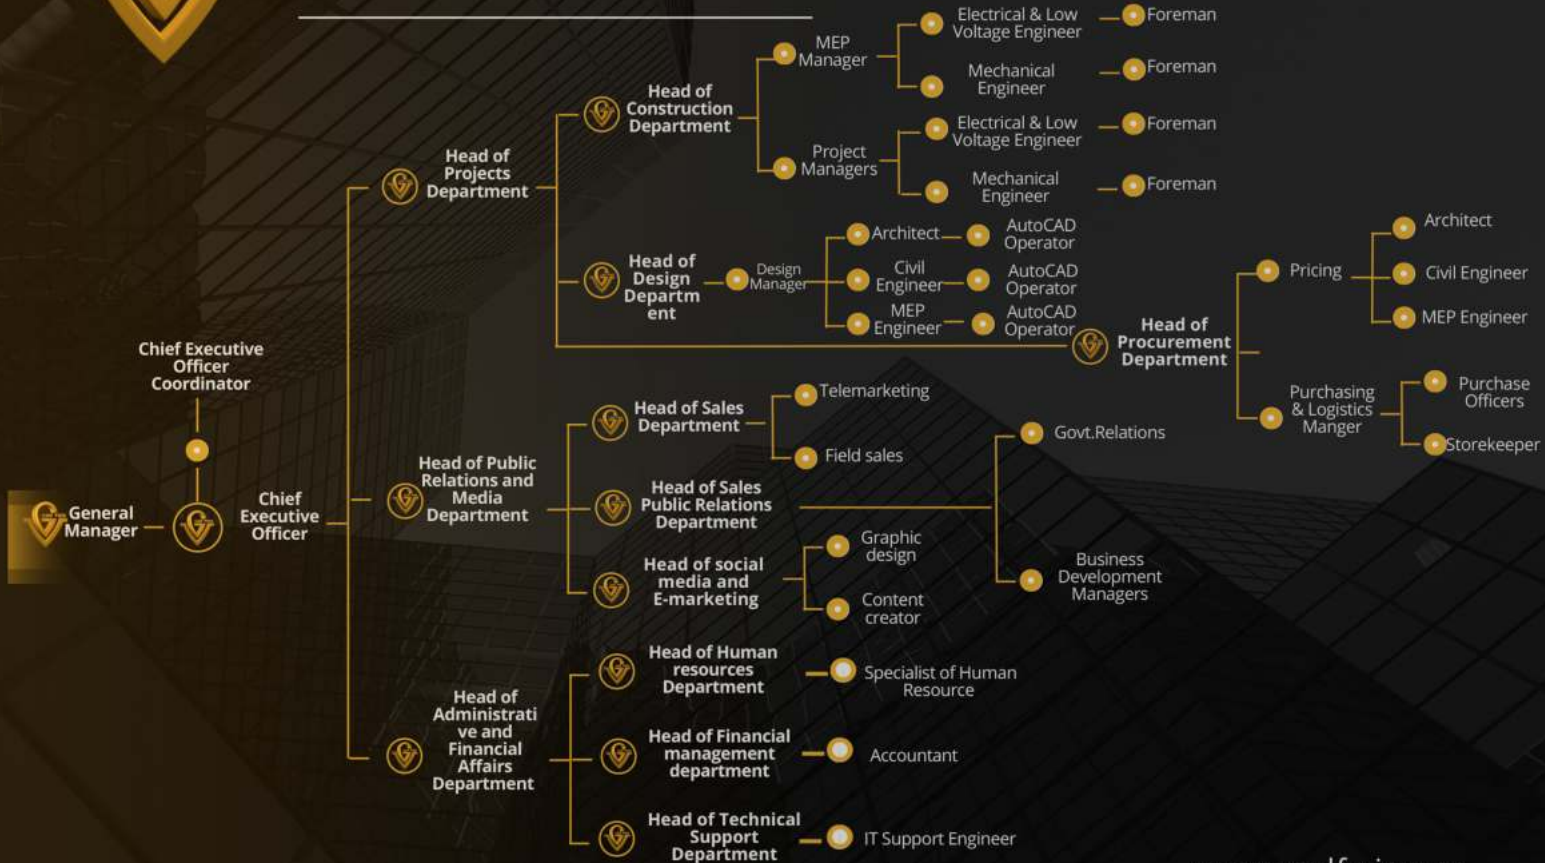

One of our most important core value states that we are "dedicated to detail - our care and attention to detail drives exceptional quality". Over many years we have refined our processes and procedures to ensure that we can produce projects of the very highest quality on a consistent basis.

Our commitment to delivering the highest quality project is evident at key stages throughout every project - from design to procurement & planning and establishing quality standards specific to our client' objectives, through to creating an environment on every project where attention to detail and quality is nurtured, encouraged and celebrated.
